

FOR IMMEDIATE RELEASE

February 19, 2009

(Winnipeg, MB) Red River Coop Speedway is proud to announce the creation of a radical new racing division for the 2009 season.

The all-new open wheel "Lightning Sprints" will compete at a minimum of nine (9) race events in 2009, beginning with the Enduro Challenge Series Season Opener on April 25, 2009.

Featuring distinctive aerodynamic "wings" to provide downforce, weighing just 730 pounds, and powered by extremely reliable 130 horsepower 750 c.c. motorcycle engines, Lightning Sprints provide fast and exciting wheel-to-wheel racing action at speeds rivaling the fastest full-bodied stock cars. Lightning Sprints compete on both paved and dirt ovals around the world with the heaviest concentration in the United States.

For more information about this exciting new racing division, please contact Darren Pallen at (204) 228-4251. You may also log on to www.nlsprints.com

About Red River Coop Speedway

Red River Coop Speedway is Canada's fastest 4/10 mile dirt oval race track. The track has operated for over thirty years at its present location five miles south of St. Norbert on Highway 75. Red River Coop Speedway features full concessions, is licensed, and has seating accommodations for up to 4,000 people. Red River Coop Speedway is regarded as one of the top dirt track racing facilities in Canada. More information on Red River Coop Speedway can be found by visiting www.redrivercoopspeedway.ca.
